

VOLIK

Volleyball club of IISER Kolkata

About VOLIK

At IISER Kolkata, we believe that a truly rounded education balances rigorous academic research with the vibrancy of student life and sports. As a core pillar of this vision, the Volleyball Club (VOLIK) stands as one of the most engaging and widely participated communities on campus. We are committed to building a larger, inclusive volleyball family, where the joy of every spike and the energy on the court serve as a powerful recharge from our demanding academic schedules.

Our competitive spirit is as strong as our community bond. Our silver medal achievement at the 2025 IISM (Inter IISER Sports Meet) proves that our players are far from casual; every move on the court is calculated, precise, and executed with an ace-like focus. Furthermore, we are incredibly proud of the recent surge in women's participation. We are currently witnessing a new era for sports on campus, where the growing presence of talented female athletes is redefining our competitive landscape and inspiring the next generation of players.

Beyond our current members, we are supported by a formidable alumni network known as "VOLIK-Star." This dedicated community stays deeply connected to our roots, providing not only mentorship and guidance but also essential financial assistance that has been instrumental in the growth and professionalization of our club.
